saving you £2,140

The all new MaxiSYS Ultra is the first diagnostic tool to be designed to match the growth of more complex automotive electrical systems and Electric Vehicles (EV), which are becoming ever more common place.

The Ultra has a super large screen, our fastest processors, our largest ever SSD memory and even a docking station as standard.

The Ultra combines diagnostics, service, extensive live data, channel coding and ECU reflashing* as seen on the MS908Pro. New to the Ultra is our **MaxiFLASH VCMII** with built-in Oscilloscope, Multimeter, Signal Generator and OBD Bus Check Functions. The VCMII connects to the Ultra using hi-speed Wi-Fi which greatly increases the communication speeds.

The all new VCMII also has **Enhanced Protocol Compatibility** and supports **D-PDU, RP1210, CANFD, J2534 and DoIP protocols**. The Ultra has all new software specialist capabilities that we have named **Repair Assist, DTC Analysis, Topology Mapping and Relevant Cases**.

All New Software Capabilities

-  System Topology
-  Relevant Cases
-  Repair Assist
-  DTC Analysis
-  Tech Bulletins

ULTRA includes a number of great features such as outstanding coverage with 80+ manufacturers, full diagnostics, 26 service functions, channel coding and programming.

Specifications

- Android 7.0
- 2,3Ghz + 1,7Ghz Samsung Exynos 8895v Octa-Core
- 256GB Internal memory
- 4GB RAM
- 12,9" 2732 x 2048 TFT-LCD Correlle glass
- Ultra fast power on
- 18,000mAh Lithium-Polymer battery
- Oil and water resistant screen

**BOSCH****DAS3000 ADAS Package**

ADAS (Advanced Driver Assistance Systems) is now fitted to most vehicles. The technology is fast evolving in the form of Adaptive Cruise Control, Lane Departure Warning, Automatic Emergency Braking and many more. However, these systems often now need to be calibrated by means of static target boards, alignment lasers and dynamic test drives.

Features

- Future proof calibration & diagnostic software
- Robust trolley with extra large wheels & universal fixture, designed for installation of multiple target boards
- Scope of delivery includes an XL multi-function board: VW Group camera calibration pattern and radar reflector in one
- Integrated cameras and software workflows measure the distance to the vehicle and line-up to thrust line fully digitally
- Universal fixture offers radar 3-point calibration (-2° / 0° / +2°)
- Universal fixture with integrated height offset and roll angle adjustment
- XL Multi-function board covers all OEM radar mounting heights and requires just a lateral rough positioning

Lease £16.96pw (5yr)

ESI Masterpack Software**£1400****TEXA****TEXA RCCS3 Digital**

ADAS: RADAR AND CAMERA CALIBRATION KIT
Diagnosis and calibration of driver assistance systems

Features

- 75-inch 4k screen, which always offers an optimal display, meeting the 1:1 proportion ratio in line with the specifications of every manufacturer.
- The RCCS 3 communicates with the IDC5 software and guides the mechanic, step-by-step, to the quick and automatic identification of the vehicle. The panel is selected and set in the monitor, with no possibility of error.
- Robust construction that is easy to adjust and move
- A Mini PC built into the unit guarantees the use of an intelligent system that synchronises the IDC5 software and the TEXA unit perfectly.
- An ad-hoc solution for high accuracy wheel alignment and toe
- ACS (All Around Calibration System) allows calibrating 360° cameras and Dopplers* for VAG Group (AUDI), SEAT, SKODA, VOLKSWAGEN, LAMBORGHINI) vehicles.
- Doppler Simulator, required to calibrate the blind spot radar.

**BrainBee**

WORKSHOP SOLUTIONS

Connex Digital ADAS Package

The solution that completely changes the maintenance of ADAS systems.

The Brainbee digital ADAS solution uses a revolutionary targetless technology that is simple and easy to use, making maintenance of ADAS systems accessible to all workshops. One of the benefits of the targetless digital system is that no additional panels are required. The digital panel is driven by the Connex software and displays the necessary target applicable to the vehicle in question, quickly and efficiently.

Features

- EASY TO HANDLE - All the operations can be carried out by just 1 operator
- DIGITAL - Saves space in the workshop
- WIFI CONNECTION - Ensures systems and calibration procedures are always up to date
- KEYSTONE SYSTEM (Patented) - For maximum accuracy
- SUPER QUICK - Can be aligned and positioned in 5 minutes max.
- FULL HD - 4K MONITOR - Ensures extreme accuracy under any light condition

DTS Connect PLUS

The future of remote diagnostic technology is here. DTS Connect Plus is the next generation of the extremely popular and successful DTS Connect interface. DTS Connect Plus follows the same philosophy as the original interface but with new features, such as built in WiFi and LAN connection port which now allows for more flexible connection options and device choices.

DTS Connect Plus now has the option to be used in conjunction with an internet browser-based portal, rather than just the Android Application. This means huge flexibility on device choices, including PC, Laptop, Mac, IOS, Android and more.

Direct WiFi or Lan connection allows for faster and more stable data transfer, meaning complex jobs can be completed more easily and with greater confidence. DTS Connect Plus is also future proofed with features such as 4 Can Lines, DOIP enabled and CanFD ready.

As with the original DTS Connect interface, DTS Connect Plus gives you access to the DTS Connect servers and the team of Master Technicians on hand ready to complete Diagnostic and Key related jobs remotely over the internet for you. DTS Connect Plus allows you to access jobs and services that are normally reserved for those with tens of thousands of pounds investment in specialist equipment, at a fraction of the cost.

Diagnostic programming solution for:

- Key programming
- Pin code retrieval
- Module replacement
- Diagnostic support
- Tow bar coding
- Retrofitting
- Much more

X-431 EURO TAB III

The Euro Tab III is a newly-developed high-end vehicle diagnostic device based on the Android 9.0 operating system. Solid build quality with a huge 13" screen, the new Tab III offers many advanced features, including the Smartlink® C VCI. This advanced module allows for communication and advanced functions in several ways. Featuring its own 4.0-inch screen, the Smartlink® C communicates directly with the vehicle for local diagnosis and remotely for Launch SRD diagnosis, (Launch Super Remote Diagnosis), this new development in diagnostics allows a technician to call a service provider who, using the Smartlink®B device, will connect to the vehicle remotely. It is then possible to carry out almost any diagnostic or programming function, on almost any vehicle, using OEM or aftermarket tools. The VCI is also compatible with DOIP (Diagnosis over the Internet protocol), CAN FD, (flexible data-rate), and as a Pass-Thru device, communicating by J2534, D-PDU and RP1210 protocols.

The Euro Tab III includes the Launch professional database fully integrated into the diagnostic software. This will take the user directly from the DTC to a step by step testing routine, leading to the fault code solution. The new Tab III comes complete with the Launch O2-1 four-channel oscilloscope, as well as the Launch TSGUN and four TPMS sensors. The TS Gun will read all sensor information, programme Launch sensors, and diagnose TPMS fault codes.

EUROTAB III FEATURES

- Launch Super remote diagnosis (SRD)
- Intelligent diagnostics for 100+ car brands
- Topology mapping provides visual checking on DTCs and all systems' communication status
- Supports the following automotive communication protocols and standards:
CAN / CANFD / DoIP / J2534 / D-PDU / RP1210
- 33 Service and reset functions
- Launch guided diagnosis function
- Optional ADAS calibration function
- Advanced coding and programming function

- Extended solution to support TPMS servicing
- 2.4GHz & 5GHz Dual band communication ensures quick and stable connection
- Diagnoses light, medium & heavy duty vehicles with Smartlink® C
- Wireless software update
- Built-in repair information and training video modules help to track and fix issues fast

SPECIAL OFFER INCLUDES

- Upgrade to 3 years software for only £245, saving £280
- One year Launch CarSet electronics database powered by Haynes PRO
- Two-year Launch UK warranty

X-431 EURO PRO 5 LINK

The PRO 5 Link is a development of the successful Pro 5 Plus. The PRO 5 Link is supplied with the latest Launch development, the advanced Smartlink®C VCI. This advanced interface supports multiple communication and diagnostic protocols, these include, DOIP, CAN FD, J2534/1/2, D-PDU, RP-1210/C, 56MHz Wi-Fi, Ethernet, USB 2.0. The Smartlink®C also supports Launch SRD (Super Remote Diagnosis), this new development in diagnostics allows a technician to call a service provider who, using the Smartlink®B device, will connect to the vehicle remotely. It is then possible to carry out almost any diagnostic or programming function, on almost any vehicle, using OEM or aftermarket tools.

The PRO 5 Link uses the latest in Launch diagnostic technology, Intelligent diagnostics automatically identifies the vehicle through the VIN. Fault codes can be resolved using the Launch CarSet database, powered by Haynes Pro. Using guided diagnostics and technical information, the technician can follow a methodical test plan and resolve the fault issue.

FEATURES

- Local intelligent diagnostics
- Remote diagnostic, using the Launch SRD platform
- Compatible with multiple protocols
- Supports heavy commercial vehicles (Additional license required)
- One click software updates almost daily

BLUETECH FEATURES

Flight Recorder

Perfect for a one-man road test. Select your parameters, hit "Record" and review when back in the workshop. With its 4 GB internal storage capability, enjoy even more space to record all the data you need.

360° Multi-Colour Indicator

Lets you check the status of the VCI at any time from any angle or position.

Universal

VCI can be used for cars, light commercial vehicles, trucks, buses, coaches & trailers.

Battery Voltage Monitor

Don't let a dead vehicle battery stop you working.

WiFi & Bluetooth Connectivity to PC

Wireless communication providing freedom to work anywhere in the workshop, whilst maintaining a seamless connection to the vehicle.

Integrated DoIP

No need of any DoIP adaptor cable. With its built-in functionality, the VCI can be plugged directly on DoIP communicating vehicles.

Pass-Thru Support

Quick and easy access to OEM flash-programming services.

CAN FD Channels

Future-proof design to make the diagnostic possible on vehicles requiring this data-communication protocol.

DELPHI TECHNOLOGIES ACADEMY

AN E-LEARNING PLATFORM THAT PROVIDES TECHNICIANS WITH THE ABILITY TO ENHANCE THEIR SKILLS AND KNOWLEDGE ACROSS A WIDE RANGE OF TOPICS.

8 main training courses:

- Hybrid & Electric Vehicles
- ADAS
- Exhaust & Aftertreatment
- Petrol Systems
- Diesel Systems
- Chassis Systems
- Vehicle Electrics
- Other Systems

Features:

- 200+ individual training modules
- Extensive video content filmed in real world workshop environment
- Interactive text and questions
- Engine simulator
- Training Needs Analysis questionnaires
- Own training profile containing all certificates earned
- Mock tests for IMI accreditation
- Designed for all devices including tablets and mobiles

Benefits to the technician:

- Training from a leading, global OE manufacturer
- Flexibility to train when and where suits each individual
- Determine own training pathway and pace
- Designed for all levels of technician – from apprentice to master technician
- Tests practical skills via the engine simulator
- Pinpoint knowledge gaps to prioritise training topics
- Watch how-to videos when faced with real-life service/diagnostics issues
- New content ensures users are kept up-to-date with latest technology
- Blended approve on H/EV course can provide direct contact with trainer

Dama HDM706E Semi Automatic Tyre Changer

An amazingly low cost tyre changer that comes with excellent features and carries the Dama pedigree for quality.

This popular Semi auto tyre changer has excellent specifications, including a large turntable to accommodate 25" rims and up to 14" wide wheels, powerful bead breaker and strong demount head. The two air operated assist arms enable run flat and low profile tyres to be easily removed whilst the protection system makes it ideal for alloys.

The tyre changer comes complete with air filter regulator, tyre inflator, tyre lever and soap tub.

Price includes delivery and installation.

Specification

Max wheel diameter	39.3"
Tyre size outside	9" - 21"
Tyre size inside	13" - 25"
Wheel width	3" - 14"
Air pressure	8 - 10 bar
Power supply	230v / 400v
Net/gross weight	220/249kg

megaspin 420 Wheel Balancer

The latest generation of balancing technology, the megaspin 420 boasts features that make this the fastest floor to floor wheel balancer on the market today. Despite a host of advanced features, this balancer's simplicity is one of its main attributes, and it is this combination of ease and speed that has made it one of the most common sights in tyre shops and garages throughout the UK.

- OWB (One Weight Balancing) software intelligently calculates the ability to apply one weight to counter both the inner and outer imbalance – saves time and money
- Touchless 3D data input via Sonar
- 3 Year PCB warranty

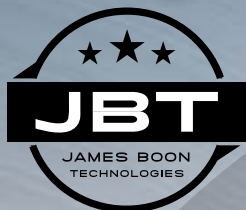

- Twin-lasers guide the user to the exact location for weight application, eliminating any room for error

- **NO CHECKSPIN** technology means the operator doesn't need to make the traditional 'checkspin', this is guaranteed 'zero/zero' first time

JBT TYRE EQUIPMENT

- Manufactured & supported in the UK

DVSA APPROVED CONNECTED EQUIPMENT

Sends results to the MTS automatically.

Saves valuable time for other profitable services and MOT tests in a day.

(A mandatory requirement for all new emissions testers or if you are opening a new MOT bay from May 2021).

VCI DAD-C1 (optional)

Delivers engine speed (RPM) for Diesel engines quickly and accurately.

EOBD Capability, oxygen sensor monitoring & powertrain freeze frame data.

Supplied with extension lead and rubber cover.

5 YEARS EXTENDED CARE (optional)

Ensure your tester is calibrated and running at peak performance year after year.

Includes two years extended warranty, two calibration visits per year, routine consumables and all MOT gas updates released by the DVSA.

FUEL 1/2" MID-TORQUE SUPER COMPACT IMPACT WRENCH KIT

- Most versatile cordless impact wrench in the MILWAUKEE® impressive arsenal with an industry-leading performance at 881 Nm of nut-busting torque and 745 Nm of fastening torque
- Incredibly compact design for this performance level, with only 152 mm overall length ideal for applications in tight spaces
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Bolt removal control delivers full torque output, then decreases RPMs once the bolt is loosened to prevent fastener drops
- Auto shut-off control applies no more than 47 Nm of torque for hand-tight fastening applications to prevent over-tightening
- 1/2" Square drive friction ring
- Reversible belt hook
- Tri-LEDs deliver high definition lighting
- Integrates three MILWAUKEE®-exclusive technologies - the POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ intelligence
- Works with all MILWAUKEE® M18™ batteries
- Includes 2 x 5AH Batteries, Charger & Packout Case

Innovative new MAGflex range from Ring

Ring has just launched its RIL6000 series of professional inspection lamps within its multi award-winning MAGflex range, providing vehicle technicians and enthusiasts with the required lighting for any job.

Whatever the job, you will always need more light.

Ring's new uniquely designed MAGflex inspection lamps are bright, portable, rechargeable and tough enough to withstand oil, dirt and knocks.

The new additions to the range are packed with features such as advanced LED technology, magnets, flexible ratchet mechanisms, hooks and focused torches.

The MAGflex range ensures professionals can get on with the job.

UNIVERSAL LOCKING WHEEL NUT REMOVER MASTER KIT

31434-WW **£199.99 +vat**

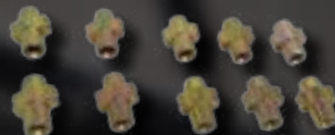

- Ideal for removal of rounded wheel nuts & most types of locking wheel nuts in an emergency. Contains new parts including the steel wheel protecting shrouds.
- Made from S45C steel for A & B blades.
- Wheel protector included; protects the wheel from any damage during removal.
- Master Kit Includes:
Outer & Inner shroud, blade A & B, mandrel A & B, spring, spring ring, tool body, centre punch, o-ring, impact driver, impact socket 24mm, protection ring, blade C, short outer shroud, Jaguar key, Range Rover key, mandrel J, blade D & Ford key.

10X LOCKING WHEEL NUT BLADE

31433-A1-WW **£50.00 +vat**

- 10 Replacement locking wheel nut blades for use with 31433-WW.

INTELLIGENT BATTERY TESTER WITH PRINTER 6-30V DC

44151-WW **£199.99 +vat**

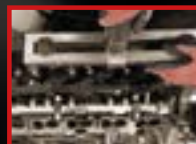

- Designed with advanced conductive testing technology with built in printer.
- Quickly & accurately measures the actual cold starting current of the starting batteries in various vehicles.
- Ideal for detecting common starting failures & checking the battery health condition.
- Tests all automotive lead acid batteries, AGM Flat Plate, AGM Spiral & Gel batteries.
- Reverse connection protection protects the tester, vehicle and battery from damage if connected incorrectly.

UNIVERSAL HYDRAULIC INJECTOR REMOVAL TOOL KIT

43467-WW **£945.00 +vat**

- Designed to remove stubborn & seized injectors.
- Compatible with Bosch, Delphi, Denso & Siemens injectors.
- No need for cylinder head or engine removal which allows for on car use to dramatically increase speed & time efficiency.
- 12 Ton hydraulic cylinder included (also sold separately as 43468-ww).
- Heavy duty supporting bridge which can be adapted to suit any space as support for the cylinder head. Set includes adaptors for all Bosch, Delphi, Denso, & Siemens injectors.

INDUCTION MATE™

PR03886
£395.00 +vat

- Induction Mate™'s flameless technology is ideal for bolt removal. Often, during mechanical repair, old bolts and nuts are seized and are extremely difficult to remove. The specially designed Induction Mate™ makes a tough job easy compared to the traditional method using dangerous flames.
- The Induction Mate™ is extremely reliable & fast with its 30 second heat-up time, insuring the job gets done quickly and efficiently.
- Designed with LED Light to improve visibility, this feature is also great for use in confined areas where it is harder to locate the fastener.
- Includes various sized coils to suit different bolt sizes: 18mm, 22mm, 28mm in diameter & all with a length of 20cm. Flexible soft coil also included: 1mtr long.
- The Induction Mate™ has a specific time saving rotating locking feature which allows the user to replace the coil quickly, then easily lock it into place by twisting the red rotating lock. To unlock, simply rotate the locking function back to release the coil.

- Other Specifications:
Input Voltage: 220V 50/60Hz.
Input Current: 4A.
Output Power: 500-900W.
Output Voltage: 40V.
Output Current: 180A.

TIME SAVING ROTATING LOCKING FEATURE

EXTRA INDUCTION COIL SET INCLUDED

Universal Digital Pressure Tester - Comprehensive Kit

33100000

£1,395.00
 5yr Lease £7.40pw

Possible applications include petrol / diesel compression, oil pressure**, turbos, cooling systems, Ad Blue systems, fuel, vacuum and particle filter pressure.

- Easier to read and see smaller variations in pressure and vacuum
- Options to save, share export or print results for reference or to present to customers
- Suitable for high pressure petrol & diesel readings (with optional transducer & fittings)
- Unit pre-programmed for future add-on kits
- Compatible with previous and existing gauge products from Sykes-Pickavant

Kit includes Tester, 2x Sensors (0-300Bar & 1-3Bar), Universal Diesel Compression Adaptor, Universal Petrol Compression Adaptor, Eight Specific Professional Quick Coupling Adaptors and Vacuum Adaptors.

**Adaptors required for entry via oil pressure sensor

Venom Induction Heater Deluxe Kit

960400SP

Generates Invisible Heat® to release corroded and thread locked metal components without the danger of an open flame.

Includes removable tray with eleven labelled coils, including nine interchangeable pre-formed coils to heat fasteners up to 1 1/2" diameter and from 4" - 10" long. Flexible Bearing Buddy for wrapping around inline and asymmetrical objects and a straight heat resistant U-Form coil for DIY winding.

Coil Twist Lock™ Coils now lock down with one simple turn (no more thumb screws).

Other features include LED Usage Indicator to show functional status of the unit, 3 Second Fault Override Delay to protect the tool & Enhanced Fan Operation to improve cooling of the unit during use.

2 Year Limited Warranty.

£715.00

ACC-9280 Hi-Performance ATF Station

Fully automatic, easy to use with WiFi, large touch screen display and new graphical interface, allows the operator to easily service automatic transmissions. The database and step-by-step procedure instructions, with images of connection points, are integrated into the software.

The station allows the automatic detection of the direction of the oil flow in the transmission and prevents any damage to the system. The WiFi connection allows constant updates and remote assistance (Re.Solve), as well as the ability to print the final report directly from your workshop PC (Nexus Print).

The Dipstick function allows operation on sealed transmission systems, which can only be serviced via the oil filling hole. The ATF Remote Viewer App enables the operator to check all the steps being executed. Interchangeable tank for quick replacement of oil types. Purity is guaranteed by the Zero-Cross contamination function (internal cleaning of circuitry and external hoses).

Master Hub Puller Plate Kit

08522500

Universal hub puller plate with 8 slots for maximum coverage

Features

- Full kit with all options
- Hydraulic / slide hammer / force screw
- Supplied in metal tin

£299.95

BRAKE/CLUTCH BLEEDER 12VPART NO.
5629

A portable, self contained, pressurised brake bleeder which is powered from the vehicle's 12V battery. Can also be used on hydraulic clutch systems.

- With 5ltr reservoir tank which enables the entire braking system fluid to be replaced in one fill.
- Pressure adjustable up to 36psi (2.5 bar).
- Supplied with catchment bottle and a syringe to remove old fluid as well as 44mm European brake fluid reservoir adaptor.

OUR PRICE
£599.95**MANUAL PRESSURE BRAKE BLEEDER 2L****OUR PRICE**
£69.95PART NO.
4832

Designed for use with most brake master cylinder reservoirs with Euro Adaptor (reservoir neck 44mm). Has an easy to pump action and visual gauge allowing this task to be performed quickly and effectively. An adaptor is supplied for fitting to European vehicles.

- 2ltr capacity tank.
- One way syphoning method.
- Operating pressure 10psi; maximum pressure rating 30psi.
- Quick connector and pressure release valve. Pressure gauge 0 - 70psi (0 - 5 bar).

BRAKE FLUID TESTERPART NO.
4875

A simple tool for testing the percentage of water in brake fluid.

- Colour coded LEDs show level of water.
Green: Battery OK - No water found.
Yellow: Less than 1% water - No action necessary.
Yellow/Yellow: 2% Water found - Check regularly.
Yellow/Yellow/Red: 3% Water found - Change brake fluid.
Yellow/Yellow/Red/Red: 4% Water found - Change brake fluid immediately.
- Suitable for Dot 3, Dot 4, Dot 5.1.
- Not suitable for silicone based Dot 5.

**OUR PRICE**
£24.95**MINI RATCHETING BRAKE PIPE CUTTER 4.75MM**

The compact head, ratcheting handle and self-adjusting cutting mechanism make the tool ideal for use in confined areas. The cutter head features an automatic spring mechanism to maintain the correct cutting pressure on the pipe

- Compact head, only 15mm radius with a 4.75mm (3/16") cutter designed specifically for brake pipes.
- To further increase leverage use the 1/4" drive square in the end of the handle.

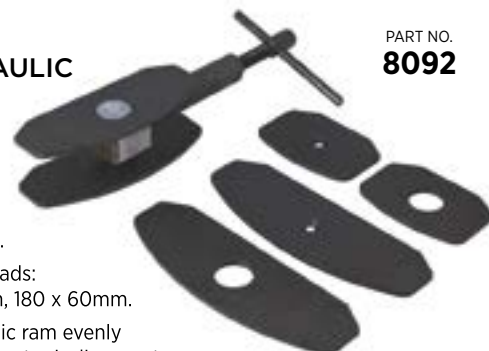

PART NO.
7624**OUR PRICE**
£22.95**HYDRAULIC BRAKE FLARING TOOL SET**PART NO.
4938**OUR PRICE**
£169.95

Includes a full set of dies and punches to produce high quality SAE and DIN flares on 4.75mm, 5mm and 6mm pipes. The patented design uses a T-handled hydraulic ram to deliver plenty of power for consistent results on steel, coated steel, cupro-nickel and copper pipes. The compact, hand-held design can be used in-situ on the vehicle to quickly produce high quality flares.

BRAKE CALIPER SPREADER, HYDRAULICPART NO.
8092

For 2, 4 and 6 piston calipers supplied with three sizes of spreader pad.

- Supplied with T-handle.
- Spread range: 37 - 71mm.
- Supplied with 3 sets of pads: 90 x 60mm, 150 x 60mm, 180 x 60mm.
- Centrally located hydraulic ram evenly spreads the force to prevent misalignment.

**OUR PRICE**
£89.95**PNEUMATIC BRAKE CALIPER REWIND TOOL - 3/8"D**PART NO.
3993

For left and right hand threaded pistons. Suitable for most 3/8"D wind-back adaptors and pin type adaptors.

- Full adaptor range available. Supplied with a 3/8"D to 2 pin magnetic adaptor to fit adaptors in 3991.

**OUR PRICE**
£59.95**BRAKE FIXING IMPACT BIT SET 3/8"D**PART NO.
8286**OUR PRICE**
£9.95

Designed to suit the most commonly used brake disc and drum holding screws.

- 5mm Hex applications: Saab, Vauxhall.
- 6mm Hex applications: BMW.
- T30 applications: Fiat, Honda, Mercedes-Benz, PSA.
- T40 applications: Hyundai, Kia, Mazda, Mercedes-Benz, Renault.
- T50 applications: BMW, MINI.

Use with relevant Connect replacement screws.
