We've Rebranded!

The future of workshops

ALL FROM A SINGLE SOURCE

Why? Well, we've grown, **CRYPTON** was predominantly a UK brand, owned by Continental since 2012. The Continental brand is global, and reflects our innovative and technological expertise as well as being a market leader around the world.

Armed with our new modern and sophisticated brand, we're heading forward together, with a fresh perspective, an inspired team, and exciting new products.

So, if you want to speak to our team about your workshop requirements, then get in touch - we'd love to talk to you.

Continental, the new home of...

balco NEW **velomount™ 3280 + velospin™ 8380P**
Since 1984

velomount 3280 Tyre Changer

The velomount 3280 is a super-duty, high-performance tyre changer with 10" to 28" clamping via Centre-Post. The Centre-Post design eliminates any external clamping of the rim, instead securing the rim via cone and shaft arrangement, similar to a wheel balancer.

velospin 8380P Fully Automatic 3D Wheel Balancer with pneumatic clamping

A top of the line wheel balancer, which handles rims up to 30" diameter and guarantees speed, accuracy, and long life. 3D data entry is complimented by an impressive, full-colour TFT display and pneumatic clamping device, which removes the need for a manual locking handle and provides even better balancing accuracy through perfect centering on the cone.

velomount™ 3240

An automatic tyre changer ideal for use in busy tyre centres, which will operate on wheels up to 22" (external clamping), and boasting super-automatic operation; meaning the demount head is placed into position by the press of a button rather than manually via spring.

- 10" to 24" clamping (22" external)
- Heavy duty, high performance structure

- velofit 4 Assist Arm for handling run-flat tyres etc
- Removable pedal box for easy maintenance

velospin™ 2000

A high-performance, Italian designed, 2D Data Input wheel balancer boasting the latest technology, but with an emphasis on simplicity and practicality.

- Handles rims up to 30" diameter
- 2D Data Input (optional upgrade to 3D available)
- Laser guidance for precise weight placement
- LED illumination inside rim for clear visibility
- Foot pedal spindle-lock for ease of weight application
- Automatic stop/start via lifting of wheelguard

All Balco pricing includes delivery, installation, FULL TRAINING & 2 YEAR WARRANTY!

balco i-Lign

Tablet-based operation is becoming more and more popular and with i-Lign from Balco, you can now choose between tablet based 8CCD, or 3D technology.

You are free to take the 'readout' with you anywhere around the vehicle, you are not restricted to a single alignment 'station' and can use the equipment on multiple bays. In general everything is much more practical with a portable system. i-Lign knocks the ball out of the park when it comes to the functionality, capability and practicality offered up by a tablet-based aligner, and compromises on nothing with its deluxe 3-Point clamps and advanced technology.

i-Lign CCD Wheel Aligner

- Compact, portable trolley houses ALL components, whilst providing 'dock' charging for the measuring heads when not in use
- Tablet operation means the operator can move freely and see live readings
- Can be used on 2 Post lifts
- Automatic look-up of the EXACT vehicle by Reg No makes it super-fast
- 8 CCD technology

THE ONLY OFFICIAL UK DISTRIBUTOR OF LAUNCH TECH DIAGNOSTIC AND WORKSHOP EQUIPMENT

X-431 EURO TAB III

Technicians can now get their hands on a newly developed, high-end vehicle diagnostic tool, the Launch X-431 Euro Tab III, featuring the new Smartlink® C VCI, an advanced module allowing for enhanced communication and functions.

Using the Android 9.0 operating system, Euro Tab III builds on the highly regarded Launch diagnostic technology, offering worldwide vehicle coverage, powerful diagnostics and numerous special functions.

Euro Tab III has 33 service and reset functions, and features Launch CarSet Electronic database powered by Haynes PRO; Launch guided diagnosis function; Optional ADAS calibration function and advanced coding and programming function.

Smartlink®C communicates directly with a vehicle for local diagnosis and remotely for Launch Super Remote Diagnosis (SRD). Smartlink®C is a new development that allows a technician to call on a remote service provider, who, using a Smartlink®B interface, will connect to the vehicle remotely and carry out almost any diagnostic or programming function, on any vehicle.

The Euro Tab III includes the Launch professional database fully integrated into the diagnostic software. This will take the user directly from the DTC to a step-by-step testing routine, leading to the fault code solution. The new Tab III comes complete with the Launch O2-1 four-channel oscilloscope, as well as the Launch TSGUN and four TPMS sensors.

EURO TAB III FEATURES

- Intelligent diagnostics for 100+ car brands
- Topology mapping provides visual checking on DTCs and all systems' communication status
- Supports the following automotive communication protocols and standards: CAN / CANFD / DoIP / J2534 / D-PDU / RP1210
- Optional ADAS calibration function
- Advanced coding and programming function
- Diagnoses light, medium & heavy duty vehicles with Smartlink® C
- Wireless software update
- Built-in repair information and training video modules help to track and fix issues fast
- Two-year Launch UK warranty

X-431 EURO PRO 5 LINK

The PRO 5 Link is supplied with the latest Launch development, the advanced Smartlink® C VCI, enabling Launch Super Remote Diagnosis. The advanced interface supports multiple communication and diagnostic protocols including DOIP, CAN FD, J2534/1/2, D-PDU, RP-1210/C, 5GHz Wi-Fi, Ethernet, and USB 2.0.

FEATURES

- Local intelligent diagnostics
- Supports heavy commercial vehicles (Additional license required)
- One click software updates almost daily
